BILLET SPORT CAP — ¥28600 ¥26,000 (税込 / 1台分セット) (税抜)

The Billet Sport Cap offers 12 combinations to personalize your Vossen Wheels. Starting as 6061 billet aluminum, the cap bezels are machined, hand-finished and powder coated in Vossen's Miami-based factory using the same finishes as Vossen Forged wheels.

The Billet Sport Center Cap insert is available in two styles, Classic and Hybrid Forged.

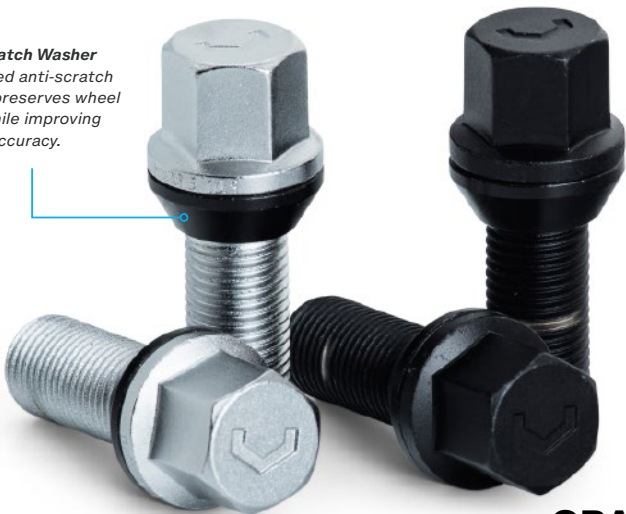

The Billet Sport Center Cap bezel is machined and finished in Miami, in Vossen's in-house wheel finishing department.

VOSSEN LUG BOLTS

Anti-Scratch Washer
Integrated anti-scratch
washer preserves wheel
finish while improving
torque accuracy.

GRADE 10.9
Hardened Alloy Steel

LUG BOLTS

Vossen Wheel Lug Bolts are strictly manufactured from Grade 10.9 hardened alloy steel and tested to ensure the safest and highest performing fasteners for aftermarket wheels. Vossen Wheel Lug Bolts are for conical 60° lug seats only and are meant to be used with the vehicle's thread engagement standards.

LUG BOLT LOCKS

Vossen Wheel Lug Bolt Locks provide an additional level of security with various unique key designs while maintaining the styling and design quality of Vossen's standard lug bolts. Like all Vossen lug bolts and nuts, the locks include an anti-scratch washer that helps preserve the wheel finish while improving torque accuracy.

VOSSEN LUG NUTS

LUG NUTS

Vossen Wheel Lug Nuts are strictly manufactured from 7075 cold-forged aluminum and tested to ensure the safest and highest performing fasteners for aftermarket wheels. Vossen Wheel Lug Nuts are for conical 60° lug seats only and are meant to be used with the vehicle's thread engagement standards.

LUG NUT LOCKS

Vossen Wheel Lug Nut Locks provide an additional level of security with various unique key designs while maintaining the styling and design quality of Vossen's standard lug nuts. Like all Vossen lug bolts and nuts, the locks include an anti-scratch washer that helps preserve the wheel finish while improving torque accuracy.

VOSSEN WHEEL & TIRE CLEANER

Vossen's Wheel & Tire Cleaner is safe for all Vossen finishes. Whether you have clear coated, raw aluminum, or powder coated wheels, this highly effective cleaning solution will remove stubborn brake dust but won't harm your Vossen wheels. With the surface cool to the touch, saturate the bead of the tire followed by the wheel with Vossen's Wheel & Tire Cleaner.

THE BEST DETAILER FOR YOUR WHEELS

Vossen Wheel Detailer is a slick, high-gloss product and gives nearly any finish a just-waxed look. This new formula is safe for use and streak-free shine on full vehicle (paint, powdercoat, glass, chrome, fiberglass, plastic, etc). This product offers incredible shine, gloss, and depth while it extends your protection as well. Each wipe down helps extend the life of your wax or sealant coating meaning your painted finishes stay protected for longer, up to an additional 2 months of longevity!

VOSSEN TIRE GLOSS

Vossen's Tire Gloss is designed with your fenders in mind. This durable, long-lasting tire dressing is infused with Graphene that not only self levels on any style tread wall, but also clings to the tire and not your paint work. This cream-based product can be applied with the supplied applicator with ease, leaving behind a rich, dark finish that's photo-shoot ready.
